SUPPLEMENTAL TABLE 1-B
Effective January 1, 2024

Valuations for determining building permit fees are taken from the current building valuation data schedule published by the *International Code Council* and are updated using the August publication each year to reflect any changes.

Permit fees are based on Project Valuation (see Table 1-A for permit fee **once project** valuation is determined).

To determine the project valuation for: Additions, multiply proposed s.f. by below amount. Window replacement, multiply the total # of windows by below amount. Then using Table 1-A, find the corresponding permit fee based on the total project valuation.

Single-family residence (new construction, additions and heated basement)	\$165.67
Unfinished basement (unheated)	\$31.50
Single-family remodel (within existing foundation)	Based on valuation
Residential Garage or Accessory Building >200 s.f. (attached or detached)	\$64.19
Carports or patio covers	\$44.05
Uncovered wood decks & porches.....	\$23.28
Reroof	Commercial – valuation of project
Window replacement - SFD	valued at \$400.00 per window
